NETBALL

Both year 5 and 6 have thoroughly enjoyed netball club this term. We have learned to work on our team and ability skills in sessions ready for our final friendly game against the Royal school. Children played their absolute socks off and you could see those skills being put to use.

GARDENING

The school garden looked a little neglected at the start of the Autumn Term so the first job was weeding and tidying. Then we planted bulbs and seeds ready for the Spring Term. The children made bird feeders out of pumpkins and when the weather made it difficult to stay too long outside we made some super nature inspired crafts!

CREATIVE STORY BOXES

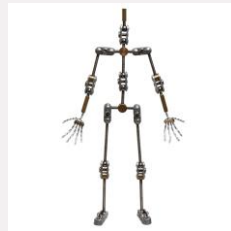

In Creative Story Box club, the children first started by writing a story. It could be about anything they wanted, from dinosaurs to animals in the jungle. Children were then given a box to bring their stories to life by creating a scene which represented their stories. Finally, the children shared their story boxes and we all got to look at the fantastic creations.

ANIMATION

In Animation club, we designed, planned and created a figure. We started by making flipbooks and then decided on what we wanted to make using a cereal box as a backdrop and armatures. This allowed children to move their figures small amounts so that when filmed, the figures would look like they were moving. The final step was to build plasticine onto the armatures to make their figure.

CROSS COUNTRY

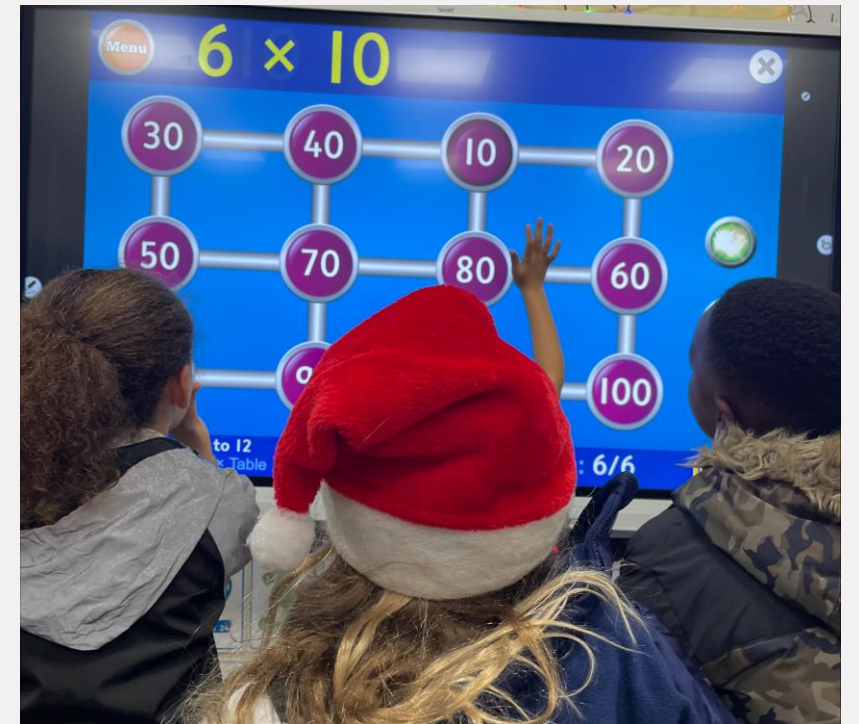

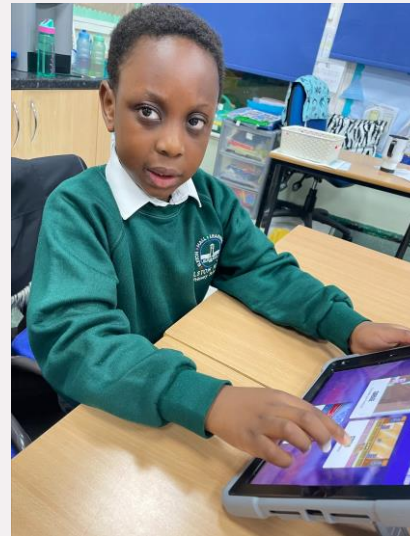

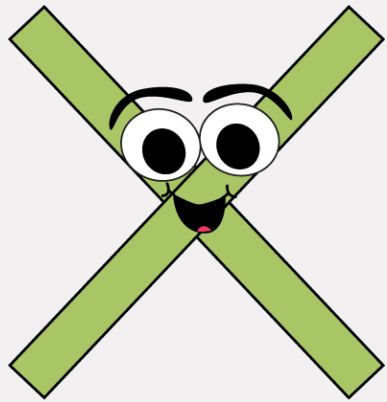

Cross country club members have been working hard on running drills and taking part in activities to develop their fitness and stamina. They've had great fun!

TIMES TABLES

We have had so much fun playing games on the board and the iPads to become quicker at times tables recall.

MUSICAL THEATRE

What a fantastic term we have had in Musical Theatre club after school! We have been joined by a very talented group of Year 5 & 6 pupils, who have developed their performing arts skills through a variety of acting, singing and dancing workshops each week. The girls have not only written and performed their own scripts on the Key Stage 2 stage, but also perfected their rendition of 'When Christmas Comes to Town' ready for their performance at Sing 4 Christmas at the end of December. They also got to show off their beautiful singing voices to residents of a local care home performing a Christmas Carol Concert recently, before finishing off our club this term with a fun dance competition!

LET'S ORIGAMI

Let's Origami takes children beyond the simple folding of paper. Children had the opportunity to create numerous Origami pieces from colourful A4 paper. They made various animals, planes, boats, flowers, an ice cream cone, Christmas chatterboxes and many more. In the final session, children had an opportunity to make whatever they wanted, to test their Origami skills. Children always have a very enjoyable time and show great enthusiasm when creating their Origami pieces.
