

Pathfinders - Jurassic Hunter

Overview

Jurassic Hunter is a history-based theme, with a focus on the four competencies of courage, commitment, creativity and community, integrating the subjects of art, science, English and geography. The story of Mary Anning, the world's most famous female palaeontologist, is both challenging and inspirational.

Where?

Where did Mary Anning live?

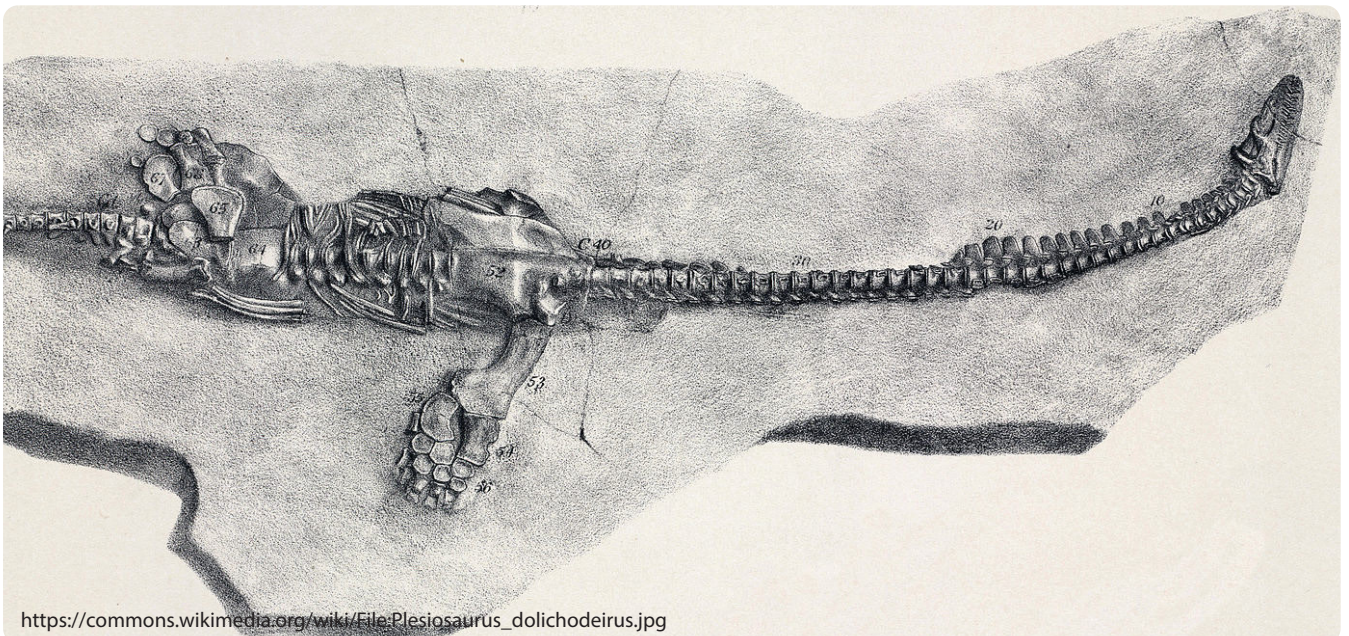

- Mary Anning was born in 1799 in a town called Lyme Regis in the county of Dorset in England. She lived there for her whole life until she died in 1847.

Who?

Who was Mary Anning?

- When Mary Anning was growing up, she loved fossil hunting with her family so much that this is where her passion for studying science began. Despite opposition from others as, during her lifetime, only men were seen to be important scientists, Mary became the world's most famous female palaeontologist, paving the way for other women to follow in her footsteps.
