### Parent Surveys

Dear Parents/Carers,

Elston Hall is an 'Outstanding' primary school; this is not something we take for granted and we always work hard to ensure that the school continues its drive for school improvement in order to provide the best quality provision for your children. In order to help us to continue moving the school forward in these ever changing and difficult times, it is important that we take into account the opinions of other stakeholders in the school – children and their families.

Every year we ask that you take time to complete a parent survey in order to provide us with vital information which can then be used to inform our school improvement plan.

This year, we have replaced the 'paper copy' version of the questionnaire with an on-line survey, this should enable families to access it quickly from personal devices such as mobile phones, laptops, iPads etc. and will hopefully reduce the time needed to complete it.

For these to be used most effectively, it is important that you answer the questions based on where you think the school is now, rather than the past. This means we can identify any positives but also any new actions we may need to take. If you would like to explain any of your responses further, please use the box at the bottom of the questionnaire.

These surveys are anonymous and confidential, unless you would like a personal response from us. The survey will be activated from today and will be closed on Friday 8<sup>th</sup> January.

As always, we appreciate your support with these and the more responses we receive the more effective the data produced will be, in enabling us to make further improvements.

The link below will be sent to families via a text to your mobile phones. Please just click on the link to access the survey. Alternatively, copy the link into your internet browser.

If you have any issues accessing the survey, please do not hesitate to contact us for advice.

Yours sincerely,

Miss E Foster
